

**WE'RE
HIRING**

floisand studio

ARCHITECTS

Floisand Studio is looking for a full-time designer/architect to join us. You'll work closely with firm principals to design and—over time—manage projects from pre-design through construction.

We are a close-knit firm where savvy and self-motivated people do well. Our employees gain a breadth of experience by working on all aspects of a project. We value career development and make it a priority to integrate employees into all facets of the design process, from early client discussions and schematic design to on-site construction facilitation. You won't be trapped in the office behind a computer.

Floisand Studio is a 5-person architecture firm located in SODO. We are an office of problem solvers working on a fairly even mix of commercial and residential projects. For more information about our firm and our work please visit our website at www.floisandstudio.com.

The ideal candidate will be **team-oriented**, have **excellent design skills**, **enjoy collaborating** on all aspects of design, and will have the following skills and qualifications:

- A professional degree in architecture
- Creativity and attentiveness to detail
- Excellent design and communication skills: graphic, verbal, and written
- Advanced to expert proficiency with SketchUp and rendering software (such as Enscape) and the ability to develop and maintain 3D models at all stages of design
- Proficiency with AutoCAD and Adobe Creative Suite
- Proactiveness and ability to switch between projects in different phases of development
- Able to freehand sketch on the fly

Compensation: We value work/life balance and offer flexible hours commensurate with experience. We offer a competitive salary and benefits package that includes: medical, vision and dental insurance coverage; paid time off; professional licensing support; continuing education opportunities; and a 1 month sabbatical after 5 years.

To apply, please email your resume, cover letter and portfolio to: allison@floisandstudio.com.
