

Lighting Designer

Blanca Lighting is a minority and women owned architectural lighting consulting studio located in Seattle, WA. We have been in business for over 10 years and have created a robust portfolio and a great relationship with our local industry. At Blanca Lighting, we are passionate about lighting design and proud of our work. We are an award-winning firm with a proven record of delivering innovative and efficient lighting design solutions that meet visual needs and create enjoyable spaces. Small but mighty, Blanca's project work ranges from stunning public art pieces to large higher education buildings, with many project types in between. We thrive on this variety of work

Blanca is looking for a full-time Lighting Designer to join our team. You'll love our dynamic work environment, flexible schedules, and work-life balance approach. We offer a competitive salary, benefits, and tons of perks.

This position is a hybrid of remote and in person, with plenty of customization for everyone's needs. Our main office is in Seattle in the lower Queen Anne area.

At Blanca, each team member is essential to the day-to-day operations and successes. In our collaborative approach to working, you will have a voice and have plenty of growth opportunities.

If you are passionate about design, self-driven, team-oriented and have great communication skills, we'd love to hear from you. Please send us your resume to lblanco@blancalighting.com.

Candidate Characteristics:

- Committed to high quality work
- Able to manage time well while working independently
- Handle overlapping deadlines and tasks efficiently
- Want to be part of a dynamic and motivated lighting design team
- Love the idea that our designs impact everyday lives
- Be curious and willing to learn
- Positive attitude and a team player
- Knows good jokes
- Comfortable simultaneously working on multiple projects of varied scales and in different phases
- Enjoys creative problem solving

Responsibilities and Qualifications:

- 40 hours a week
- Participate in all aspects of a lighting design project from lighting specification, layouts, mockups, drawings, etc.
- Collaborate and work directly with design teams and client groups
- 2-4 years of professional lighting design experience.
- College degree in a lighting related field (Engineering, Architecture, or Interior Design) or equivalent work experience
- Familiarity with Bluebeam

- Experience with Adobe Creative Suite, especially InDesign, and MS Office
- Experience using Revit and CAD.
- AGI32 is a plus
- LEED professional credentials with project documentation experience is a plus
